## The Creative Team

**Our background** - a strong background in landscape construction, garden designs and installations. We are confident our knowledge and experience can offer insight and inspiration for all your landscape projects.

**Trust us** - we understand that landscaping can be overwhelming at times. We can guide you in selecting the proper aggregates, decorative stone, landscape rock, interlocking pavers, natural stone steps, flagstone, or just that one special rock for your property. After all, a rock is just a rock until you get creative!

**Our direction** - to develop a new approach to the landscape depot sector. We source new materials that offer you different choices, yet of course don't forget about the basics. Our Inventory is selected to create the best landscape ideas! Looking for a fifteen foot slab of natural rock, or expanded shale for decorative use? We have it... If not, we'll find it.

**We know what you want** - creative products, creative solutions, competitive prices, value added customer service, and the opportunity for you to engage in dialogue with a depot who listens. We also understand the importance of prompt delivery. To put it simply, we're here to assist you.

**Who we are** - a destination where home owners and the design & landscape professionals connect, inspire, and prosper through partnership and award winning landscapes!

# DECORATIVE STONE

Decorative stone is available in all, or either of the following:

- bulk
- 1-yard tote bags
- personal carry bags

**Decorative Stone** is a permanent landscape solution that brings a clean and fresh look to any landscape design. Stone mulches will enhance raised landscape beds, tree wells, patio edging, pathways and perennial beds. Decorative Stone is also great for filling urns - whether indoor or out, and used for decorative interior designs such as filling vases or bowls. Adding the colour and texture of stone indoors creates a wonderful atmosphere and ambience. When properly installed using our edging and landscape fabric, your decorative stone will give lasting beauty year after year. The aesthetic and functional use of stone mulch will save you the yearly cost of mulching with bark mulches.

# MULCH

All mulch is available in:

- bulk
- 1-yard tote bags
- personal carry bags

Nothing adds to the splendor of a healthy, well manicured lawn like a beautiful mulch bed. The best thing about mulch is that it promotes healthy plant growth. A base of 2-3 inches of shredded mulch around your plants and under your shrubs adds organic matter to the soil which is vital to healthy plant growth.

Organic mulches improve the condition of the soil. As these mulches slowly decompose, they provide organic matter which helps keep the soil loose. This improves root growth, increases the infiltration of water, and also improves the water-holding capacity of the soil.

Organic matter is a source of plant nutrients and provides an ideal environment for earthworms and other beneficial soil organisms. Apply mulch when the weather gets warm. Don't put mulch down too early in the spring, give the soil a chance to warm up. Mulching too early will actually slow down the warming process. Mid to late spring is the best time to apply mulch.

### Benefits of Mulch

- moderates extremes in temperature
- conserves moisture
- controls weeds
- prevents erosion
- improves soil aggregation, granulation, and overall soil quality
- provides habitat and sustenance for beneficial soil organisms
- improves the efficiency by which plants take up fertilizers
- prevents soil compaction and improves aeration
- allows air and water penetration into the root zone
- aesthetically pleasing by adding texture and colour
- makes surface areas more usable for paths, play and sitting areas
- makes landscaped areas easier to maintain
- helps provide unity among a group of planting beds

# SOIL & AGGREGATES

Soil is the naturally occurring, organic material at the surface of the earth that is capable of supporting plant growth. Soil influences many areas of our lives. It is an integral part of our ecosystem. The composition of the soil in an area has a direct effect on the plant and animal life there. Soil is comprised of sand, silt, and clay, mixed with varying amounts of organic matter, water, and air.

### Screened Topsoil

- used for levelling out uneven areas and holes on lawns
- used for sodding, general planting including trees, shrubs, and perennials
- economical approach for lawn care
- 2248 lbs

**\$27.99 yard**

**\$69 - 25lb bag**

Aggregates are used for the foundation of new construction and renovations. Many granulars can be compacted while others self compact and therefore do not require machine use.

### Crushed Stone

3/4" Crushed stone has many names. This aggregate is self settling and requires no compaction. Used for permeable paver applications, drainage, window wells, foundations of all structures, and many other base installations.

# CREATIVE PLANTERS

Made of the highest grade PolyResin, which helps to retain soil moisture, provide UV protection and extend product lifespan to over 10 years. Manufactured from recycled inputs, the PolyResin used is an environmentally friendly product with a limited carbon footprint. Our planters are fully resistant to the elements - these planters are designed to withstand temperatures below freezing without cracking or splitting. All planters are available in 3 colours (black, charcoal, espresso), and 2 textures (flat, lined).

**Kobo**  
Our most versatile planter. The Kobo design can be used as an outdoor statement piece or a table top accent. Made of a durable, weather resistant plastic resin base, the Kobo is ideal for all weather conditions.

Our Corten fire bowls are manufactured from heavy gauge, 3/16" thick steel and are designed to last a lifetime. They may be used for wood-burning or specced with natural gas or propane burners. Corten (weathered steel) is an alloy that develops a stable, rust-like oxidation on its surface when exposed to the elements. This layer, which continually regenerates, provides a no-maintenance finish that protects the steel from corroding.

# CREATIVE GARDEN ART

Our Creative garden features are not only original designs and pieces of art, but they are innovative to the concrete casting industry. Each unit is hand sculpted by artisans who specialize not only in creativity but in quality driven concrete products.

Our products are suitable for outdoor use, being manufactured from proprietary blends of concrete and having unique weather resistant finishes applied. Outdoor pieces are cast in grey cement and aggregate mix and then stained. In order to produce a top-quality concrete that will not deteriorate in the winter, two additives are used:

- air entraining: this puts microscopic bubbles in the concrete that contract and expand during the freeze/thaw cycle
- water reducing plasticizers: less water in the mix equates to a higher strength, more enduring concrete

# DECORATIVE STONE

## Basalt

Basalt is a foreign stone to our region, and offers unique purple and green tones which compliment our domestic landscape products. Our Basalt selection is grand, and the possibilities are endless with the range of sizes, shapes, textures, and custom cut products we have imported and inventoried.

Basalt comes to us from many distant parts of the world, making it a foreign gem to our stone collection. This uniquely shaped rock is formed by the earth's heaving crust, fiery volcanoes, and colliding terraces. In most cases, Basalt sheds from the earth in long, thin columns, making the harvesting process and ultimate contours of the stone very unique to standard hardscape products.

### Basalt Columns

200-1500lbs

**\$0.48/lb**

Our selection offers all heights, thicknesses, and unique shapes. These columns are often used for book-shelving a stone wall, pillars for marking the entrance to a walkway or patio, or an impressive feature within a garden.

### Basalt Dish

200-1500lbs

**\$please ask**

Place a Basalt Dish in your garden, front porch, back patio, or subtly placed under a tree. Our selection is available in both natural and polished top, which all have beautiful hues of purple, blacks, greens, yellows, and whites. A Basalt Dish will bring the presense of local bird life to your gardens, as they will clean and play in the small pool of naturally collected water.

### Basalt Skins **\$0.48/lb**

200 - 600 lbs

Skins can be used to create stone benches or natural stone croppings that heave from the earth.

# FLAGSTONE

## Flagstone

**\$0.19 lb**

Flagstone is thin layers of rock, hand sliced from larger layers of stone. The process is manual and tedious, from the harvesting stage to the final install. Commonly used for patios, facing of concrete porches or walls, capping of retaining walls, or stepping stones through a garden. Our flagstone selection will be sure to offer you the sizes, colours, and textures that you require for your landscape design.

## Granite Flagstone

Our Granite Flagstone has a blend of pink, white, blue, and greys. The strength of granite surpasses a standard limestone, making this product a lifelong decision, and wonderful for heavy traffic areas.

## Flamed Oversize Flagstone

Brand new to our flagstone collection. The flame finish turns a regular flagstone into an extremely formal & smooth finish, offering a more practical hardscape surface and clean design.

**\$0.24lb**

## Glacial Oversize Flagstone

Our beautiful glacial flag offers a variety of unique colour and veins. The oversize pieces minimize seams which offers professional outcomes!

**\$0.57lb**

## Jumbo Flag 3-4"

**\$0.22/lb**

Thick Jumbo Flagstone slabs can be used for step risers throughout your landscape, connecting two unique grades to one another. They are generally used for stepping stones throughout gardens or walkways connecting two areas of your landscape.

## Granite Stepping Stones

## Oversize Wiarnton Dark

**\$0.24/lb**

Known for its rich black colour, our Oversize Black Flag is flawless in texture, consistent in its thickness, and can turn a hardscape design into dreams.

## Oversize Flagstone 1-2"

**\$0.23/lb**

Oversize slabs of Flagstone minimize the amount of joints within a hardscape, allowing for a stronger and less busy visual outcome. Oversize Flagstone can make for a quicker installation as the square footage per stone is increased. The consistency in thickness and size is immaculate and therefore effortless to work with.

# PORCELAIN & COBBLE

## Porcelain Tile

The introduction of porcelain tile offers a unique approach to formal design. Porcelain is rated stronger than natural stone tile, and therefore has a load bearing suitable for all applications. This smooth and consistent finish makes for a contemporary and clean finish, with a perfectly smooth texture. Porcelain tile is perfect for outdoor areas, urban squares, recreational parks, public transport stations, shops, driveways, patios, facade cladding, and very popular for roof-top patios as it works in conjunction with a pedestal system which facilitates roof-top plumbing and wiring.

### Benefits & ISO Standards

- colour uniformity (little colour shading)
- no internal cracking
- made from 25-42% recycled material
- water absorption 0.5% (similar to granite)
- frost resistant
- breaking strength (stronger than natural stone)
- stain resistant
- slip resistant
