GROUND & BED COVER

**Decorative Stone** is a permanent landscape solution that brings a clean and fresh look to any landscape design. Stone mulches will enhance raised landscape beds, tree wells, patio edging, pathways and perennial beds. Decorative Stone is also great for filling urns - whether indoor or out, and used for decorative interior designs such as filling vases or bowls. Adding the colour and texture of stone indoors creates a wonderful atmosphere and ambience. When properly installed using our edging and landscape fabric, your decorative stone will give lasting beauty year after year. The aesthetic and functional use of stone mulch will save you the yearly cost of mulching with bark mulches.

**Decorative Stone**

**Benefits:**

- retains soil moisture in gardens
- prevents weed growth
- enhances drainage
- prevents erosion of soil and other plant material
- do not attract insects or harbor weed seeds
- does not blow away, rot, or change colour
- easy maintenance of garden beds
- available in many colours, sizes, textures
- adds accent colours to overall landscape designs

# SOIL

info@creativelandscapedepot.com  
www.creativelandscapedepot.com  
519 - 664 - 0225

Soil is the naturally occurring, organic material at the surface of the earth that is capable of supporting plant growth. Soil influences many areas of our lives. It is an integral part of our ecosystem. The composition of the soil in an area has a direct effect on the plant and animal life there. Soil is comprised of sand, silt, and clay, mixed with varying amounts of organic matter, water, and air.

### Screened Topsoil

- used for leveling out uneven areas and holes on lawns
- used for sodding, general planting including trees, shrubs, and perennials
- economical approach for lawn care
- 2248 lbs

**28 yard**

MULCH

info@creativelandscapedepot.com  
 www.creativelandscapedepot.com  
 519 - 664 - 0225

Nothing adds to the splendor of a healthy, well manicured lawn like a beautiful mulch bed. The best thing about mulch is that it promotes healthy plant growth. A base of 2-3 inches of shredded mulch around your plants and under your shrubs adds organic matter to the soil which is vital to healthy plant growth.

Organic mulches improve the condition of the soil. As these mulches slowly decompose, they provide organic matter which helps keep the soil loose. This improves root growth, increases the infiltration of water, and also improves the water-holding capacity of the soil.

Organic matter is a source of plant nutrients and provides an ideal environment for earthworms and other beneficial soil organisms. Apply mulch when the weather gets warm. Don't put mulch down too early in the spring, give the soil a chance to warm up. Mulching too early will actually slow down the warming process. Mid to late spring is the best time to apply mulch.

**Benefits of Mulch**

- moderates extremes in temperature
- conserves moisture
- controls weeds
- prevents erosion
- improves soil aggregation, granulation, and overall soil quality
- provides habitat and sustenance for beneficial soil organisms
- improves the efficiency by which plants take up fertilizers
- prevents soil compaction and improves aeration
- allows air and water penetration into the root zone
- aesthetically pleasing by adding texture and colour
- makes surface areas more usable for paths, play and sitting areas
- makes landscaped areas easier to maintain
- helps provide unity among a group of planting beds

## Basalt

Basalt is a foreign stone to our region, and offers unique purple and green tones which compliment our domestic landscape products. Our Basalt selection is grand, and the possibilities are endless with the range of sizes, shapes, textures, and custom cut products we have imported and inventoried.

Basalt comes to us from many distant parts of the world, making it a foreign gem to our stone collection. This uniquely shaped rock is formed by the earth's heaving crust, fiery volcanoes, and colliding terraces. In most cases, Basalt sheds from the earth in long, thin columns, making the harvesting process and ultimate contours of the stone very unique to standard hardscape products.

**Basalt Columns**  
200-1500lbs  
**\$0.48/lb**

Our selection offers all heights, thicknesses, and unique shapes. These columns are often used for book-shelving a stone wall, pillars for marking the entrance to a walkway or patio, or an impressive feature within a garden.

**Basalt Dish**  
200-1500lbs  
**\$0.48/lb**

Place a Basalt Dish in your garden, front porch, back patio, or subtly placed under a tree. Our selection is available in both natural and polished top, which all have beautiful hues of purple, blacks, greens, yellows, and whites. A Basalt Dish will bring the presense of local bird life to your gardens, as they will clean and play in the small pool of naturally collected water.

Our large inventory of Coursing & Wallstone allows you to select exact products that will best suit your landscape design and surrounding ambience. The range of colours, sizes, natural faces and sawn cut ends, and options to mix and match all of these features within each category of coursing makes designing and building easy.

Coursing is generally a brick or stone used to face a home, building, or wall. Coursing typically has a 4" bed or depth which is the standard for most mason and bricking applications. No matter how much you use on your home, natural stone coursing adds interest to traditional and contemporary exteriors. If you're looking for a stately presence, include a natural stone in your renovation or new build design.

Wallstone is commonly used for rustic wallstone or building applications. These products range in sizes and can have a variation in all dimensions, allowing the builder to create a modular and random laying pattern and outcome.

## Guelph Buff \$0.21/lb

If your design calls for a natural mix of brown hues, Guelph Buff will meet your requirements. Available in either light - brown or a wash of all brown tones, our Guelph Buff Coursing & Wallstone is a compliment to all landscapes.

## Eramosa \$0.21/lb

The mix of light and dark grays is what defines the rich Eramosa Coursing & Wallstone. The Eramosa often has fine running streaks of deep charcoal lines that add to its character.

## Riata Coursing \$0.21/lb

Riata has a soft grey tone, that makes for an easy match to most domestic landscape materials.

## Granite

The strength, shine, and metallic sheen that a Granite Coursing & Wallstone has makes this stone a favorite for borders of gardens and hardscape surfaces, and retaining walls.
